

UNIVERSITY OF CALIFORNIA, RIVERSIDE

Student Learning Outcomes for the B.A./B.S. in Anthropology

Students completing the B.A./B.S. major will be able to:

1. Comprehend that anthropology is a holistic and interdisciplinary discipline that studies human variability in time and space.
2. Be able to identify factors that influence change of human groups in time and space and leading to cultural and biological variability.
3. Demonstrate an ability to analyze empirical data.
4. Demonstrate an ability to construct an informed argument.
